For example, a little "search" research would tell you that Kindle is one of them. Amazon.com lists a number of different "online-reading applications". Finally there are the "e-book" retailers like "knoquak" which sometimes include "online-reading" applications. Sure, you can take the ebook with you and install it on your phone (or tablet), but then you have to manage it yourself. There are dozens of different e-book formats, like mobi, rtf, eps, etc. A single PDF can be sent to a kindle device, but there might be a different format for a kindle device - I don't know about that. The ebook on the other hand is what you get from a supplier, in an already formatted pdf/epub/zip/whatever. You have an "update" process to follow if it's a book series, and there's support if a book is out of print or e.g. part of a trilogy. I have a nice ebook of the Wheel of Time. The ebook can be read on a tablet, cellphone, and on your PC - no need for the software if you have the ebook on your hard drive. And there is no "update" process. For personal use, the ebook is simply the ebook, no difference. Both are 6d1f23a050
