

Portable Adobe Photoshop CS3 Extended Photoshop CS3 Extended includes all the same features as Photoshop CS3, but adds a whole new set of tools and . And when using the Extended version, you will finally be able to create new images and edit them. Photoshop CS3 Extended has new tools: - Photoshop Elements 4.0 is a program that allows you to perform almost the same actions as Photoshop CS, but does not require Photoshop to be installed. - Puppet Warp - a tool for deformation and distortion of objects. - Picture Cutout Guide - a program for separating objects from the background, getting a picture-in-picture effect.
