### What's New In Free YouTube To DVD Converter?

You want to burn YouTube clips to a DVD movie? Or maybe you want to join YouTube clips to create DVD menus? You are on the right place. Download YouTube clips to create DVD movies You can download YouTube clips directly to your computer desktop with Free YouTube to DVD Converter, enabling you to join YouTube clips into a single DVD movie or to burn a DVD for presentation, education, etc. The following is a tutorial of Free YouTube to DVD Converter. By putting a YouTube clip into your clip board, you can easily convert it into a DVD movie with Free YouTube to DVD Converter. Step 1. Add one or more YouTube clips to Free YouTube to DVD Converter. Press the Add button to browse your computer desktop and add a YouTube clip to the interface. As you can see, the extracted video would be added into the Clipboard on the top right of the interface. Step 2. Paste the YouTube clip into Free YouTube to DVD Converter. Once a YouTube clip is added, you can right-click to paste it into Free YouTube to DVD Converter. Or, you can drag and drop the YouTube clip to the bottom of the interface. To paste a series of YouTube clips, click the right icon next to the video clip to copy them all. Step 3. Start the video conversion. Once the YouTube clips are copied into the Clipboard or dragged into the interface, you can continue with the video conversion. Just select the quality you want to convert the YouTube clips to, and click the OK button to convert the YouTube clips to DVD. You can also choose a combination of quality, duration, resolution, and output format. Step 4. Choose a destination. After clicking the OK button to start the conversion process, you will be able to choose a destination folder. By default, the directory will be placed into the default desktop and you will be able to access it from there. Alternatively, you can choose another location to save the video files. Step 5. Go with the video conversion. After pasting the clips or clicking OK, the video conversion will start immediately. Meanwhile, the tool will keep working to complete the conversion as fast as possible. Step 6. Receive the converted video. After the conversion completes, you will be able to receive the video in the location you chose. The converted files will be kept under the Clipboard icon after the conversion to save space. Note: The converted video is normally not playable in any media player.
