Download HamsterBall Gold mod, latest version, for Minecraft PE 1.15.Q: Django order_by on field containing part of other field value I am trying to order_by 2 fields, the first one is a DateTimeField, the second one is a model that has a ForeignKey (to the model in the first field) The model with the ForeignKey is called Sample, and is specifically only for one type of sample, which is called Pig. The Pig has a field named Sample_group which is the type of sample sample are assigned to: Pig, Boar, etc. sample_group is a ForeignKey to a SampledGroup model. So, I want to order a Django queryset of Pig samples by the Sample.sample_date field, and order the SampledGroups by the Sample.sample_group. So far this is my code: (ps if anything is going wrong with my code please do let me know) models.py class SampledGroup(models.Model): group_name = models.CharField(max_length=50) description = models.CharField(max_length=80) model_type = models.ForeignKey(ModelType) set_name = models.CharField(max_length=30) sample_type = models.ForeignKey('Sample') sample_size = models.IntegerField() sample_group = models.CharField(max_length=20) class Pig(models.Model): #note : this is not the actual Pig model, its just an example sample_group = models.ForeignKey('SampledGroup') sample_group_name = models.CharField(max_length=50) pig_name = models.CharField(max_length=50) pig_color = models.CharField(d0c515b9f4
