Japanese Patent Application Publication No. 2000-201683 (U.S. Pat. No. 6,667,938) describes a film developing apparatus of this type. In the film developing apparatus described in Japanese Patent Application Publication No. 2000-201683, a cartridge is loaded through an entrance port, is moved forward by a conveyer screw to wind the film in the cartridge in a cassette loading position, and is moved by the conveyer screw to a developing position. The cartridge is pulled

out of the cassette loading position and the developing position by a take-up spring. In the developing position, the cartridge is positioned with its back end portion supported by a pair of roll
